

JIFFY
Plan presented free with
September 1985 issue of Radio Modeller

Simplicity of the construction can be judged from the spread of the parts shown below. Cut the components accurately and carry out a dry-fit before gluing into place. Indicate the position of the radio equipment on a drawing before you commence construction.

JIFFY
36inch span sports model
for two function radio
and .8 to 1.0cc engines
Designed by Richard Preston
